

RAP SHEET

FOURTH QUARTER - 2006

OK Alarm Lic. #0089

Let's Nab The Bad Guys Together!

If you are a business with air conditioning, you are a target for copper thieves. If you have trailers or equipment stored in pipe fenced yards - watch out! If you have a work truck or van with tools in it, you better do something to secure them. Never leave anything of value visible in your vehicle!

It is difficult to secure assets left outside, that is why ESI prefers video verification on any exterior beam or motion detector. Oklahoma City Police Department nabbed this thief at the business that was having their

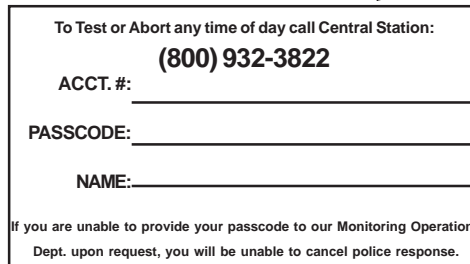

air conditioner attacked because our central station could verify the alarm, give a description of activity, and because the detection devices were covert and silent, this alarm dispatch takes priority! The Police Department really likes to capture, unfortunately 99% of alarms are not real, let's help them catch the bad guys by maintaining your alarm system and training all of your users on how to operate it. Call for more information!

NEW PASSCODE CARDS

If your card looks like this please call so we can issue a new one that looks like this

OLD CARD

NEW CARD

Automated System Tests

Because of all the new Telco products and people changing telephone services, ESI has decided to set all automatic testing to a minimum of weekly. Daily testing is available for \$8.00 per month. This only tests communications, system testing should still be done monthly so..

Test Your System!!!

Kick It Up A Notch!!!

Awesome New Product!

ESI now has a wireless motion or vehicle probe that takes 5 minutes to install and is easily expandable to provide chimes throughout your home or business. Range is 3000 feet, it is very stable and starts at \$230.00. You won't believe who is around your house or business!

PERS

Personal Emergency Response System!

Our Personal Emergency button is becoming very popular with not only our elderly clients but also situations of hold-up in businesses, panic in estranged spouse situations, handicap aid, or any situation where someone is to be notified at the push of a button. Button, receiver and communicator start at \$300.00

Insurance Discounts

As premiums are rising, so are the discount percentages. If you shop insurance quotes make sure to verify your security system discounts, if there is any question about your system please contact us and we can help you.

Subscriber Verification Form

Every security administrator should be holding a current list of Subscriber information. Use this document to fax us changes and we will return an updated copy for your next change.
